

International Extrusions, Inc.:
taking control of

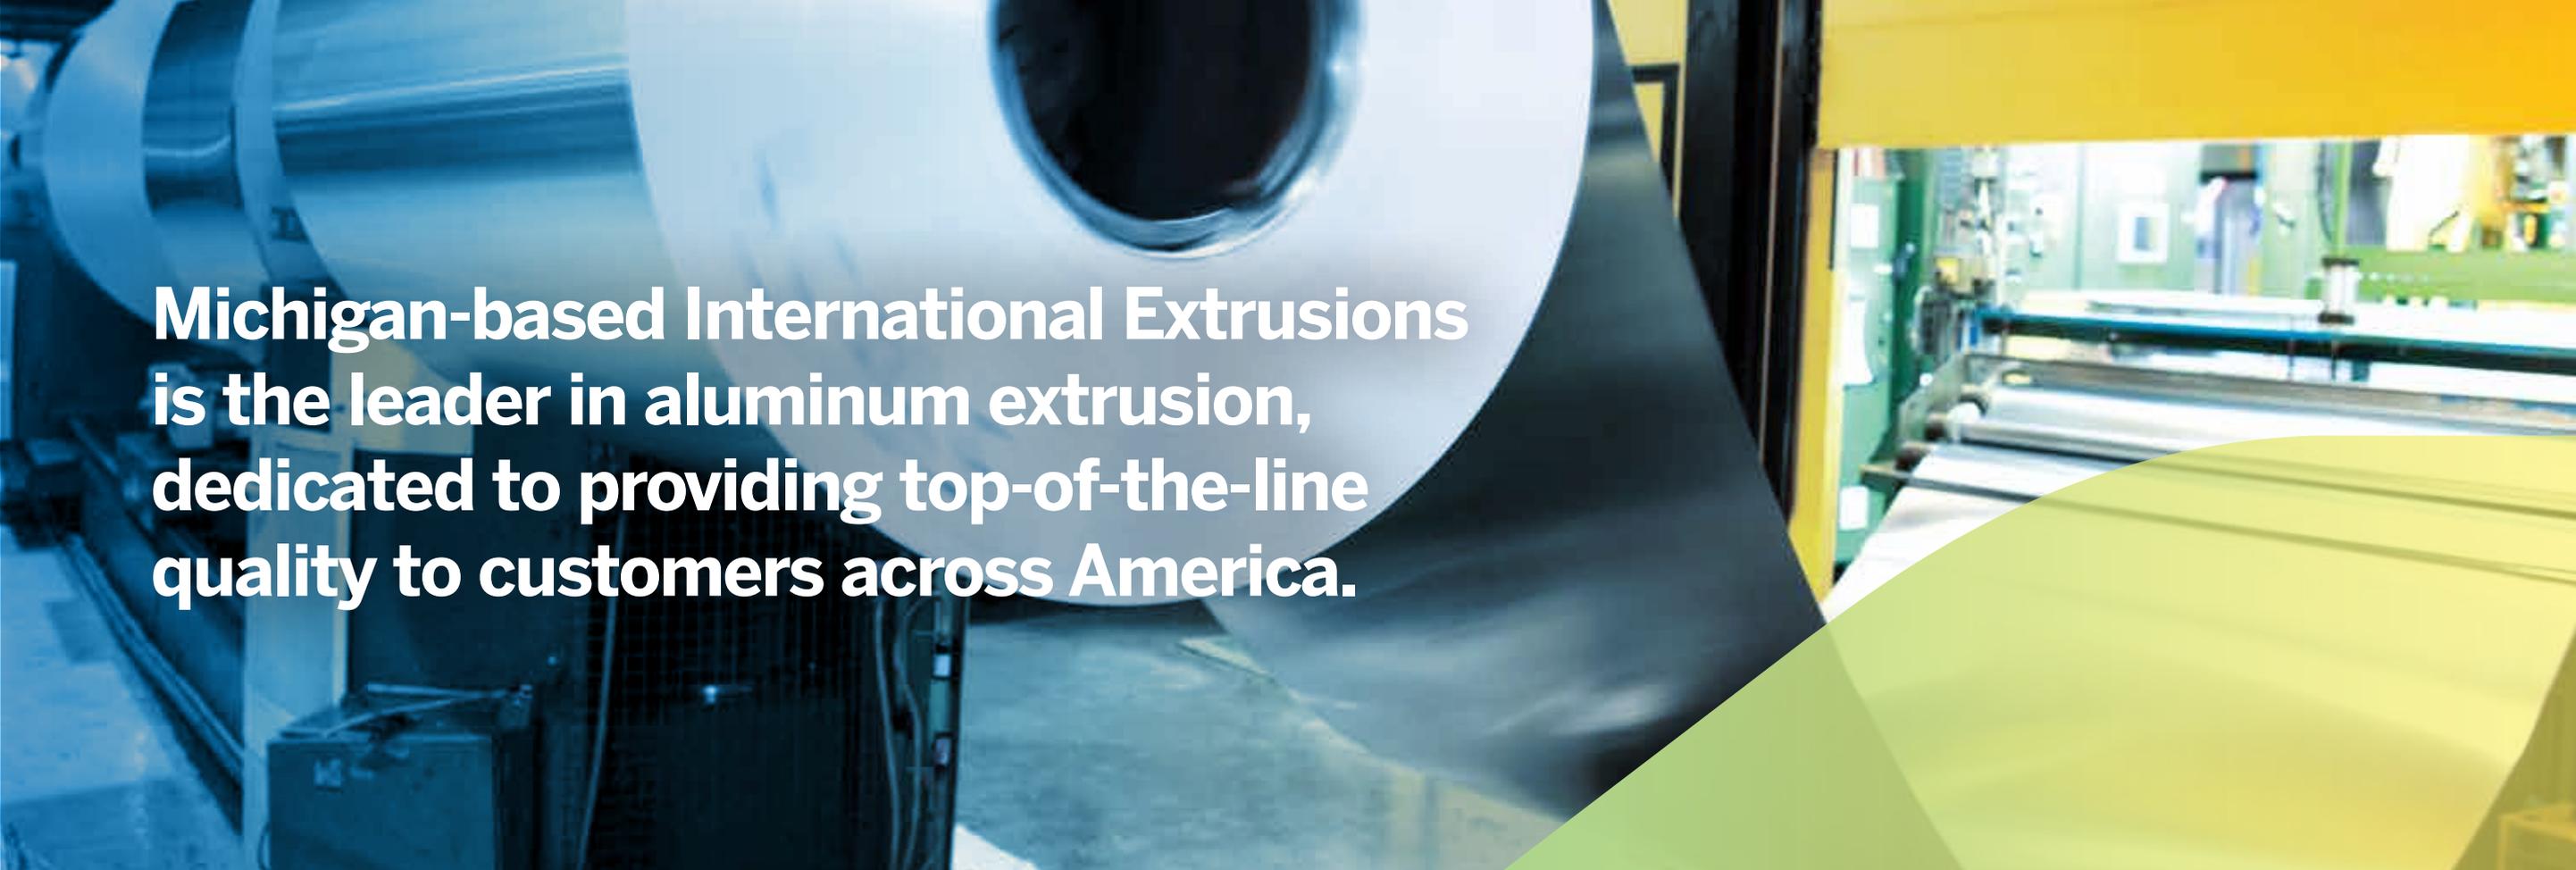

budget certainty

in a growing business

Constellation.

America's energy choice.

A photograph of an industrial aluminum extrusion facility. Large rolls of aluminum are being processed by machinery. The scene is brightly lit, with a yellow overhead structure visible. The image is partially obscured by a blue and white gradient overlay on the left side.

**Michigan-based International Extrusions
is the leader in aluminum extrusion,
dedicated to providing top-of-the-line
quality to customers across America.**

Constellation.

America's energy choice.

In 2016, International Extrusions' demand was increasing substantially and it needed to be able to increase production.

Constellation

America's energy choice.

The company needed the local utility to run larger gas lines to its plant in order to supply its equipment. The utility construction costs for the new lines would be more than \$100,000.

Constellation®

America's energy choice.®

Constellation's unique agreement with DTE Gas Company (the local utility) gave International Extrusions the opportunity to have the construction costs for new service installations reduced by \$100,000.

Constellation.

America's energy choice.

International Extrusions took advantage of this benefit, reducing the utility construction charge to just \$15,000.

Constellation.

America's energy choice.

This has allowed the International Extrusions team to reallocate dollars they were previously spending on energy supply to the needs of the core business instead.

Constellation.

America's energy choice.

“Constellation helps us navigate the market when it comes to purchasing and managing energy costs for our facility.”

—George Gazepis, Chief Financial Officer, International Extrusions, Inc.
